

# Simplified Dental Plan

We want to make it as easy as possible to help you keep your oral health at its best. That is why the dentists at Northwood Dental have developed this plan. It is meant for the uninsured individual, someone who does not have access to dental benefits through their employer, or employees of small businesses that do not offer a traditional dental benefits plan.

This plan will enable you and your family to obtain all needed dental services at our office at a reasonable cost without the headaches of having to deal with insurance company paperwork, deductibles or service limitations.

This plan may not be used as a supplemental or secondary insurance plan. To be eligible for participation, you can not be covered by any other dental insurance plan.
